proposal to supply timber at lower class of Concession rates of house builders in the Ex Jeypore was sanctioned as a very special case. The Conservator of Forests very strongly objected to the supply of timber at the Bhimuga Depot, noticed in October 1912. Sir,

I have the honor to state that with a view to encourage the poorer classes of house builders in the Durgigudi extention of the Shimoga Town, Government in their order No. 7995-7Ml. 73-10-8 dated 27th March 1911 were pleased to sanction the supply of timber at concession rates till the end of June 1913. The District Forest Officer was asked to supply them at the Shimoga Depot, but he replied that a coppe had been allotted on the Shimoga Thirthahalli road about 15 miles from Shimoga As most of the house builders were non agriculturists and had no carts of their own to fetch the wood felled in the coupe a reference was again made to Government in this office No 223 dated 30th May 1912 to make timber available in the depot at Shimoga Government Order No R 2005-6/Ft 18-11-4 dated 7th October 1912 sanctioning the same was received in October 1912 The Vice President was asked to give wide publicity to the same Much time was lost in correspondence between the Vice President and the District Forest Officer and in the meantime the period fixed by the Governrent has expired only one person has benefited by the concession

2. As there are several persons who have applied for house building materials at concession rates and whose application are pending disposal the matter was placed before the meeting of the Municipal Council held on the 23rd December 1915 and a copy of the resolution is herewith submitted. The Council has resolved that the Government be moved to extend the concession for a further period of two years without discrimination as to the circumstances of the applicant

3. The origihal concession was in favour of the "poorer classes" only, but the present recommendation is to allow the concession to all alike without reference to the circumstance of the applicants In view of the fact that the extension has hitherto attracted so few people(only 7 houses having so far been constrcuted) I consider that it is desirable to popularise the extension by the grant of concessions to all who will build houses within a period of two years

4. In this view I recommend that the proposal of the Municipal Council may be approved

fully recognises the need for making the Extension primarily available to those that are dishoused in the old town, but in view of the facts that the Extension has so far failed to attract many house builders and that dishousing of any portion of the population of the old town must be preceded by a regular survey of the town and a plan for opening out congested areas which the Council proposes to take up with the assistance of Government as early as possible, the Council resolves to move the Government to allow timber concessions for the present as an encouragement, to all persons willing to build in the Extension, the Extent of the concession being graduated with reference to the size and kind of the buildings, to be determined in each case by the Managing Committee subject to the control of the Deputy Commissioner.

" A list of the persons whose applications for these concessions are pending with the concessions to be given in each case as determined by the Managing Committee.

For the reasons explained in the above resolution the proposal of the Council may be approved, on receipt of orders, the list of applicants for concessions, together with information as to the extent of concessions which the managing committee proposes to grant in each case, will be submitted.
